Salesforce

FREYA HURWITZ
Director of Procurement Operations
TripAdvisor
Kids in Tech was founded in 2016 in Lowell, Massachusetts to prepare disadvantaged kids with interactive, free after school programs in computers and technology.

Opportunities in STEM-related occupations are projected to outgrow all other sectors. By promoting a positive environment and fostering lifelong interest in STEM, Kids in Tech is both preparing students to success and helping to diversify the field to meet future demands in the STEM fields.

By 2024, 80% of the top 10 most in-demand STEM jobs in the Greater Lowell area will be in technology – and, these are some of the top most desired skills for many growing industries across the country. In the past three years, Kids in Tech has offered programs at four different sites serving low-income kids in the Lowell area.

**FUTURE GOAL**
With corporate support, we will expand the number of youth and families served in more communities across the region and around the country.

“I love building robots!”
**Daryel | Kids in Tech Participant**
KIDS IN TECH
MISSION

Kids in Tech strives to excite, educate, and empower children to acquire skills and confidence in technology through interactive after school programs.

Our programs focus on helping kids develop the necessary tech skills and aptitudes to participate in and be future leaders of the 21st-century innovation economy.

“I like it a lot. I wish it was longer!”
Aydan | Kids in Tech Participant

EXCITE, EDUCATE AND EMPOWER
